# ABOUT THE SCHOOL

The core purpose of Symboyzia is to provide children with a learning environment which brings out the best in them. We believe that every child is endowed with a unique set of attributes and abilities, which need to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being.

At Symboyzia, we provide a learning environment that inspires and motivates children, and encourages them to explore limitless possibilities in their quest for knowledge. Since inception, our overarching goal has been to make Symboyzia a happy school, where teaching is a pleasure and learning is a joy; where learning and excelling is a passion, and culture and values have a pre-eminent place.

Our caring and committed teachers are our pillars of strength. They teach our children not just with their minds but with their hearts. They make learning enjoyable and rewarding, and imbibe in children the importance of sound values. Our excellent educational programmes are complemented by state-of-the-art facilities and resources, and our focus on sports and co-curricular opportunities facilitates children's holistic education.

## What makes Symboyzia truly distinctive?

1. The School Celebrates a culture of excellence in academics and the all-round development of children
2. Individualised attention to each child to cater to their diverse learning needs
3. Talented, experienced and dedicated teachers with linguistic and cultural diversity
4. Offers an integrated curriculum from Nursery to Class XII, ensuring every child participates in Library, Music, Sports, Dance and other areas of interests
5. Wide range and depth of community service programmes
6. A safe and secure learning environment, with focus on student well-being
7. High-quality student leadership opportunities including exposure to leaders, innovators and iconic personalities from all walks of life
8. Foreign language programs

# The Kindergarten Programme - Nursery And K.G

Our Programme inculcates in children the qualities of curiosity, exploration and discovery in a fun-filled, safe and happy learning environment. An individualised approach helps nurture a love of learning; develop social skills, and instill moral values. The emphasis is on developing in students, self confidence and the ability to effectively communicate in English as well as in their mother tongue; teachers ensure this through effective use of language and by encouraging children to express themselves freely. A well-balanced curriculum and theme-based instruction help the young minds integrate their learning smoothly. The emphasis is on exploring, knowing, understanding and forming their own ideas. The principles of learning applied in Kindergarten include Holistic Development and Learning (Aesthetics and Creative Expression, Language and Literacy, Numeracy, Self and Social Awareness); Integrated Learning; Active Learning; Supportive Learning; Interactive Learning and Learning through Play. The curriculum prepares children for a smooth transition to a more formal Primary curriculum.

# The Primary School Program - Class I to Class V

Our program encourages inquiry and exploration, and develops children's competence in various skills - reading, writing, listening, speaking, problem-solving, observation, measurement and use of information and communications technology. It offers an exciting and creative learning environment, with an inter-disciplinary appreciation of Languages,

Mathematics, Science and Social Studies, as individual and integrated subjects. Equal emphasis is given to individual, small group and whole-group activities, to improve children's ability to work across all levels. Physical Education develops sports skills and creates health awareness. Exposure to team and individual sports encourage a sense of team spirit, and individual effort and accomplishment. The wide range of curricular and co-curricular opportunities offered helps instill in children confidence and discipline. The focus on developing communication skills helps them appreciate the value of education, as it reflects in their ability to express themselves, in addition to developing pragmatic skills.

## The Middle School Program - Class VI to VIII

This program is structured to meet children's varied intellectual and developmental needs. It ensures progression and continuity across various stages of learning in the School, and incorporates continuous evaluation and review of children's performance. The main aims of the Program are developing skills related to writing, reading, reflecting, critical thinking, public speaking, fostering initiative among students and a desire to acquire knowledge. Drama, Computer studies, Music, Yoga and Dance are integrated into the mainstream curriculum and are further strengthened as optional co-curricular activities. PSHE (Personal, Social, Health Education) helps students address their age-specific interests and concerns, builds awareness, and promotes compassionate and ethical conduct. Physical Education is offered in a more formal manner and sports skills are fine-tuned. This prepares students to

pursue sports in a more structured and purposeful manner. The Integrated Projects and Events showcase the knowledge and skills acquired by students in various subjects, and serves as a concrete step towards developing inter-disciplinary approaches in later years. Field trips and excursions aid in developing social skills and in raising awareness about the world. Projects, presentations and group activities are more formal and research-based. Inter-house cultural and sports competitions encourage healthy competition and team spirit.

## Central Board of Secondary Education Program - Secondary and Higher Secondary

At Symbozyia, the curriculum starts with an emphasis on learning basic facts and gradually moves to detailed understanding of concepts, through interpretation and evaluation as students progress to higher classes. It is built around the principles of knowledge, understanding, application and skill-sets. Projects and the application of knowledge form an integral part and aid the development of analytical skills. The Program aims to empower children to contribute towards a humane, just and pluralistic society, and promote introspective living.

Class IX serves as a preparatory year where students study English as the First Language, Hindi as the Second Language, and Mathematics, History, Civics and Geography, Science (Physics, Chemistry and Biology), Environmental Science and Computer Studies as core subjects. School trips and excursions enable children to expand their understanding of the world from academic and cultural perspectives. They participate in Dance, Drama, Arts, Western and Indian Music, Yoga and other activities. They organize and participate in Inter-house cultural and sports events, thus developing leadership skills and team spirit. In the two-year CBSE program at Symbozyia, Classes IX and X students study a range of subjects that are exciting and challenging. Through a

stimulating classroom environment and high levels of student engagement, the program empowers students to build on their own learning styles. In doing so, the curriculum actively supports discussion-based learning and hands-on activities, and embeds innovative approaches to learning across all subjects. ledge – students who flourish physically, intellectually, emotionally and ethically.

For the purpose of fostering competencies in learners, the curriculum encompasses seven major learning areas, which are: Languages, Humanities, Mathematics, Science and Technology, Skill Subjects, General Studies and Health and Physical Education. Widely regarded as one of the best pre-university courses in India, CBSE aims to develop students who have excellent breadth and depth of knowledge – students who flourish physically, intellectually, emotionally and ethically.
